Tal Azuelos
Software Developer

talmesho@gmail.com | +972542011524 | linkedin.com/in/tal-azuelos

PROFILE

Passionate and motivate to work and learn, can handle pressure, autodidact, a risk-taker, good at taking initiatives, team player and with an open mind.
I am seeking a junior position as a software developer.

EDUCATION

2021 – Current	Computer science, Open University
2015 – 2017	M.E.D, Tel-Aviv University
2011 – 2014	B.E.D (Math for high school), Levinsky

SKILLS

Over the past year, in parallel with my studies, I have studied various courses that have given me knowledge and experience in the following skills:
C, Java, Linux, python, algorithms, Assembly MIPS & DS.

PROJECTS

Assembler

A program that translates an assembly file into a machine language.

The program is written in C language.

Scheduler

A program that manages the execution of multiple tasks to be executed after time in seconds.
The project is based on self-implementation of some data structures (like priority queue).

WORK EXPERIENCE

Math teacher at Mikve Israel. Holon
September 2014 – September 2020
As a part of my job I performed the following roles:
- Coordinator of *"Cracking the Glass Ceiling"*
- Coordinator of *"Green Community Education"*
- Preparing students for final exams
